Ratak+ Product Update

May 8th, 2026

Ratak+ is no longer being manufactured by Syngenta. It is now being manufactured by Neogen. As a result, it will no longer come in a case with 20 small boxes. *This change unfortunately moves away from the smaller packaging option.*

We do not have any Ratak+ cases left. All orders will now be filled with Talon G Mini Bait Packs.

Our price sheet has been updated with Talon G Mini Bait Packs

Now manufactured by **Neogen**

New name: **Talon G Mini Bait Packs**

New format: **75 x 50 g place packs (3.75 kg pail)**

✓ Registration number remains (16064)

✓ Green pellets remain the same

*If smaller packaging is what you are after,
Jaguar 50 Place Pacs is a great alternative to Ratak+.*
